## COURSE INFORMATION

Farming is everyone's future. All you need to start feeding your family is 3m x 5m land, water for irrigation, and a smart farmer attitude. Join our 1-day veggie farmer course to learn the ins and outs of small scale farming. This course is designed to impart the basics of crop production for easy and practical implementation.

Laeveld Agrochem and AgricultSURE have an ingenious solution to produce food, reduce hunger, but also to create jobs and agri-preneurs. This solution is their [Home Garden Starter Pack](#). One seed pack can produce ± 100kg nutritious vegetables on 15m<sup>2</sup> land. This can be used to supplement food for a family of 6 for one month. Join our 1-day veggie course to ensure you get the most out of your investment.

The course content will focus on the seasonal seed packs available (summer / winter).

## COURSE CONTENT

- Soil types & preparation.
- Planting season.
- Planting (spacing & depth).
- Types of irrigation & watering.
- Weed & pest control.
- Basic costing.

## INCLUDED

- Tea, coffee, & rusks at arrival.
- Light packed lunch.
- **Home garden seed pack.**

The first 150 learners to enrol will be subsidised by LaeVELD Agrochem. They generously agreed to help with R400 per learner, which means you only pay **R500**.
