COURSE INFORMATION

Often referred to as red gold, saffron is the most expensive spice in the world. With this workshop you'll get a quick, but thorough introduction to the propagation, growing, and harvesting of saffron. **Spend a half day on a working saffron site** and after a light lunch it's time for theory and an opportunity to get all your questions answered. The following will be covered:

- Plant description and growth cycle.
- Corm storage.
- Fertiliser program.
- Field preparation, irrigation, and care.
- Fungal treatment, pests, and problem animals.
- Planting corms.
- Harvesting and removing stigmas.
- Grading, drying, and storage of stigmas.
- Hygiene environment.
- Dormant stage.

INCLUDED

- Tea, coffee, & rusks at arrival.
- Light lunch.
