

FARMLIFE

THE PHOTOGRAPHIC CHRONICLES

"My grandfather used to say that once in your life you need a doctor, a lawyer, a policeman, and a preacher. But every day, three times a day, you need a farmer." - Brenda Schoepp

SHARPENING UP THOSE MAINTENANCE SKILLS

GET TO KNOW OUR LEARNERS

Our distance learners are involved in some interesting projects. We want to spotlight their achievements and introduce them to you.

AKONA MAPIKATA

I am Akona Mapikata, a February 2022 National Diploma Animal Production student. I am doing my practical work at the laying farm called Philadelphia Chicks. I am participating in lots of different activities on the farm such as feeding the chickens, weighing them, vaccinating them, and also grading the eggs according to their classes. I am expecting to gain a lot of experience since I am also exposed to their office admin.

All distance learners who wish to feature in our newsletter can send photos and information on themselves and their workplaces / projects to their mentors.

USEFUL PUBLICATIONS

FOOD FOR MZANSI

With 12 global awards in the first three years of its existence, Food For Mzansi is much more than an agriculture publication. It is a movement, unashamedly saluting the unsung heroes of South African agriculture. We believe in the power of agriculture to promote nation building and social cohesion by telling stories that are often overlooked by broader society.
